OVERVIEW OF 3RD PAN-AFRICAN FORENSIC TRAINING WITH PRACTICALS

INTRODUCTION

Over the years it has been observed that several crimes occur without the conviction of the real culprits and in the worst scenario, the innocents are the ones convicted and jailed for crimes they did not commit due to lack of a vital ingredient in every criminal case called EVIDENCE. Courts or judges need evidence to convict criminals or set the innocent victims free. This situation has not helped globally in the fight against crimes, rather the lack of evidence to convict culprits has helped criminality to be on the increase as perpetrators of crimes walk freely on street enjoying the fruits of their criminal activities with no conviction or punishment they deserve to serve as deterrent to others in the society. It is against this background that the JJTC Consulting Ltd /ICDMFS came on board to provide training on Forensic Professional Capacity Development aimed at equipping participants with the practical skills and knowledge that will help those saddled with responsibilities of investigation to apply prerequisite skills in the collection, analyzing and presentation of a scientifically processed evidence concrete enough to enable lawyers and judges in the delivery of judgement that will convict criminals or set free the innocent. The quest also becomes a gateway to human resource development through training, research, documentation and policy advocacy in the field of Forensic Crime Investigations as well as Emergency Management in our society and particularly in those organizations and individuals with commitment to fighting crimes and corruption as well as managing emergency situations.

ABOUT US

JJTC Consulting Ltd and her subsidiary International College of Disaster Management and Forensic Studies (ICDMFS), are firms committed to the global fight against crimes, corruption and disasters management through training, workshops, seminars, advocacy and practical scientific methods of generating evidence sufficient enough to enable courts to convict or free the suspects.

WHO ARE ELLIGIBLE FOR OUR TRAINING

We provide training to the interested organizations, public and private individuals, such as Forensic Investigation Experts, Expert Witnesses, Private Investigators, Detention Officers, Emergency Workers, Law Enforcement Agencies, the Military, lawyers, Judges, Emergency Management Agencies/Authorities, Rapid Responses Squad, Health Workers, Psychologist, Wildlife Officers, Accountants/Auditors, Administrators, other Security Workers, NGOs etc.

MODE OF TRAINING DELIVERY

The training mode of delivery is both virtual and physical. The theoretical presentations are usually delivered virtually and runs for a period of eight (8) weeks of two (2) equal semesters of four (4) weeks each. This will be followed by one (1) week of practical training in any city across the globe depending on where the participants want and subject to the number of participants in that city.
